INTRODUCTION:-

State bank of India green channel very important Indian country State Bank of India (SBI) will introduce “green-channel banking” at more of its branches to promote very important paperless work and to facilitate faster transactions for customers, SBI sources said.

Indian country all major transactions, including withdrawals, deposits and remittances up to Rs 45,000, will be made through green-channel all banking, which was introduced because 26 out of 680 branches of the bank in the first phase, the all bank’s General Manager (Network-II), Devendra Prasad, said on Wednesday. This is all India promote green channel.

There was no specific number of all branches to be covered in the state with these facilities in the first and second phase; several more branches -- including some at Berhampur, in Ganjam district -- are expected to introduce all green channel counters.

Because since there is no paperwork in this initiative, because it is called green-channel banking,” said Mr. Prasad, who was here to address customers and inspect some of the all branches.

State bank of India green channel all customers need not fill up any pay-in slip or cheque for deposit or withdraw money from their account. Instead they could access the services of ATM.

Green channel are to very simple in India promote In the very important green channel to all public. In this way, there will be not requirement of all paperwork and the process of green channel money transaction will be fast,” he said.

Around 35 percent of the all bank's total transactions, mostly deposits are made through alternative green channels, including all mobiles, the intranet and ATMs and green-channel banking, in 2013-15.

He because said the bank would add more branches in the all state during the current year 2015. In the last financial year 2015, it had opened 11 branches in the state.
